Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Regarding claim 3, line 2, it is not clear which "arm" applicant is referring to since there are a plurality of arms recited.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as anticipated by Hill (US patent no. 896,990). Hill discloses a detachable folding clotheshorse comprising: a seat (the embodiment of figure 4 where the seat can be configured with plural seats for plural arms as in figure 3 embodiment, see page 2, lines 20-23) with a top side, a bottom side and an outer periphery the seat having a plurality of slots (7, figure 4) defined through the seat from the top side to the bottom, and each slot having a notch (space above 13) defined at the outer periphery a supporting edge (top surface of pin 13) formed beneath the notch, and at least one protrusion (13) formed at an inner wall of the slot adjacent

the notch; and a plurality of arms (4, fig. 4) respectively and pivotally mounted in the slots, each arm having at least one channel (figure 4) longitudinally defined at a side facing the at least one protrusion for receiving the protrusion and at least one opening (14) defined at a top-rear end of the channel for access of the protrusion to the channel.

Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 3-7 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The remaining cited art of record demonstrate hanger with radial slots.
